

I am a seventeen year old senior at Gloucester County Christian School. I began my education in the Bridgeton school system and transferred to The Aura Elementary school when I was in the third grade. I completed my elementary education at Aura. After graduating from Aura I moved on to Delsea Regional School District and continued my education there through the tenth grade. In my junior year I transferred to Gloucester County Christian School where I've continued my education and plan to graduate in May.

After graduation I intend to enroll in Gloucester County College and major in Pre-School education with a concentration in music. My plan is to go on to a four year college and get my BA degree.

As of now I am a child care provider for working parents and guardians. Along with this job I help children with homework, reading, and counting numbers. I also volunteer at the Glassboro Head start. At the head start I go in at least three mornings out of the week and help a few teachers with their class. I help teach, read, art exc. I enjoy singing, dancing, writing songs and poetry. I also enjoy working in the dark room processing black and white photography. As you can see I also love to work with children and their educational development. Moreover I enjoy doing church and community services.

With my music background development I have participated in the Marian Anderson music scholarship competition for three years and this year will be my last year. I have also been involved in the Afro-Academic, Cultural, Technological

Scientific Olympics program for three years and this is also my last year end also I have competed in the Josephine Hence 2002 music scholarship competition for one year. A great accomplishment for me came this past year in November. I had the chance to have my own full concert. I am also a part of the Gloucester County Children's Choir and Art Society.

Separate from my music background I have many other activities such as a praise dancer, a member of the Camden County Junior Marines, where I have participated for two years now. I am also involved in many church and school functions.
